

# Hosted Cloud Video

# Solution Overview

We are a hardware-free cloud video surveillance solution provider, perfect for small businesses and multi-location enterprises...

... our solution requires **No On-Site Gateway or Specialized Hardware.**

# Solution Overview

- ✓ Replacement for On-Premise Video Surveillance Systems (e.g. NVR, DVR)
- ✓ Direct connection from camera to cloud, no on-site hardware
- ✓ All the camera access, configuration, video storage, alerts and other features are managed through the cloud
- ✓ Works with the largest number of Premium cameras – Axis, Amcrest, Hanwha Techwin, Hikvision, Speco, VIVOTEK
- ✓ Unlimited locations, users and cameras can be supported inside one account
- ✓ Powerful, easy-to-use Web and Mobile Apps (Android, iOS)

IT Solutions and Services

# What Makes Us Different?

## Hardware-Free

Direct connection from camera to cloud, requiring no on-site gateway hardware.

## Open Platform

Support for the largest number of camera brands with plug and play cloud setup, eliminating complex network configuration.

## Lowest Cost of Ownership

Lower cost vs. traditional on-premise systems – setup time, ongoing maintenance and simple monthly plans.

# Ideal Deployment Type - Multi-Location

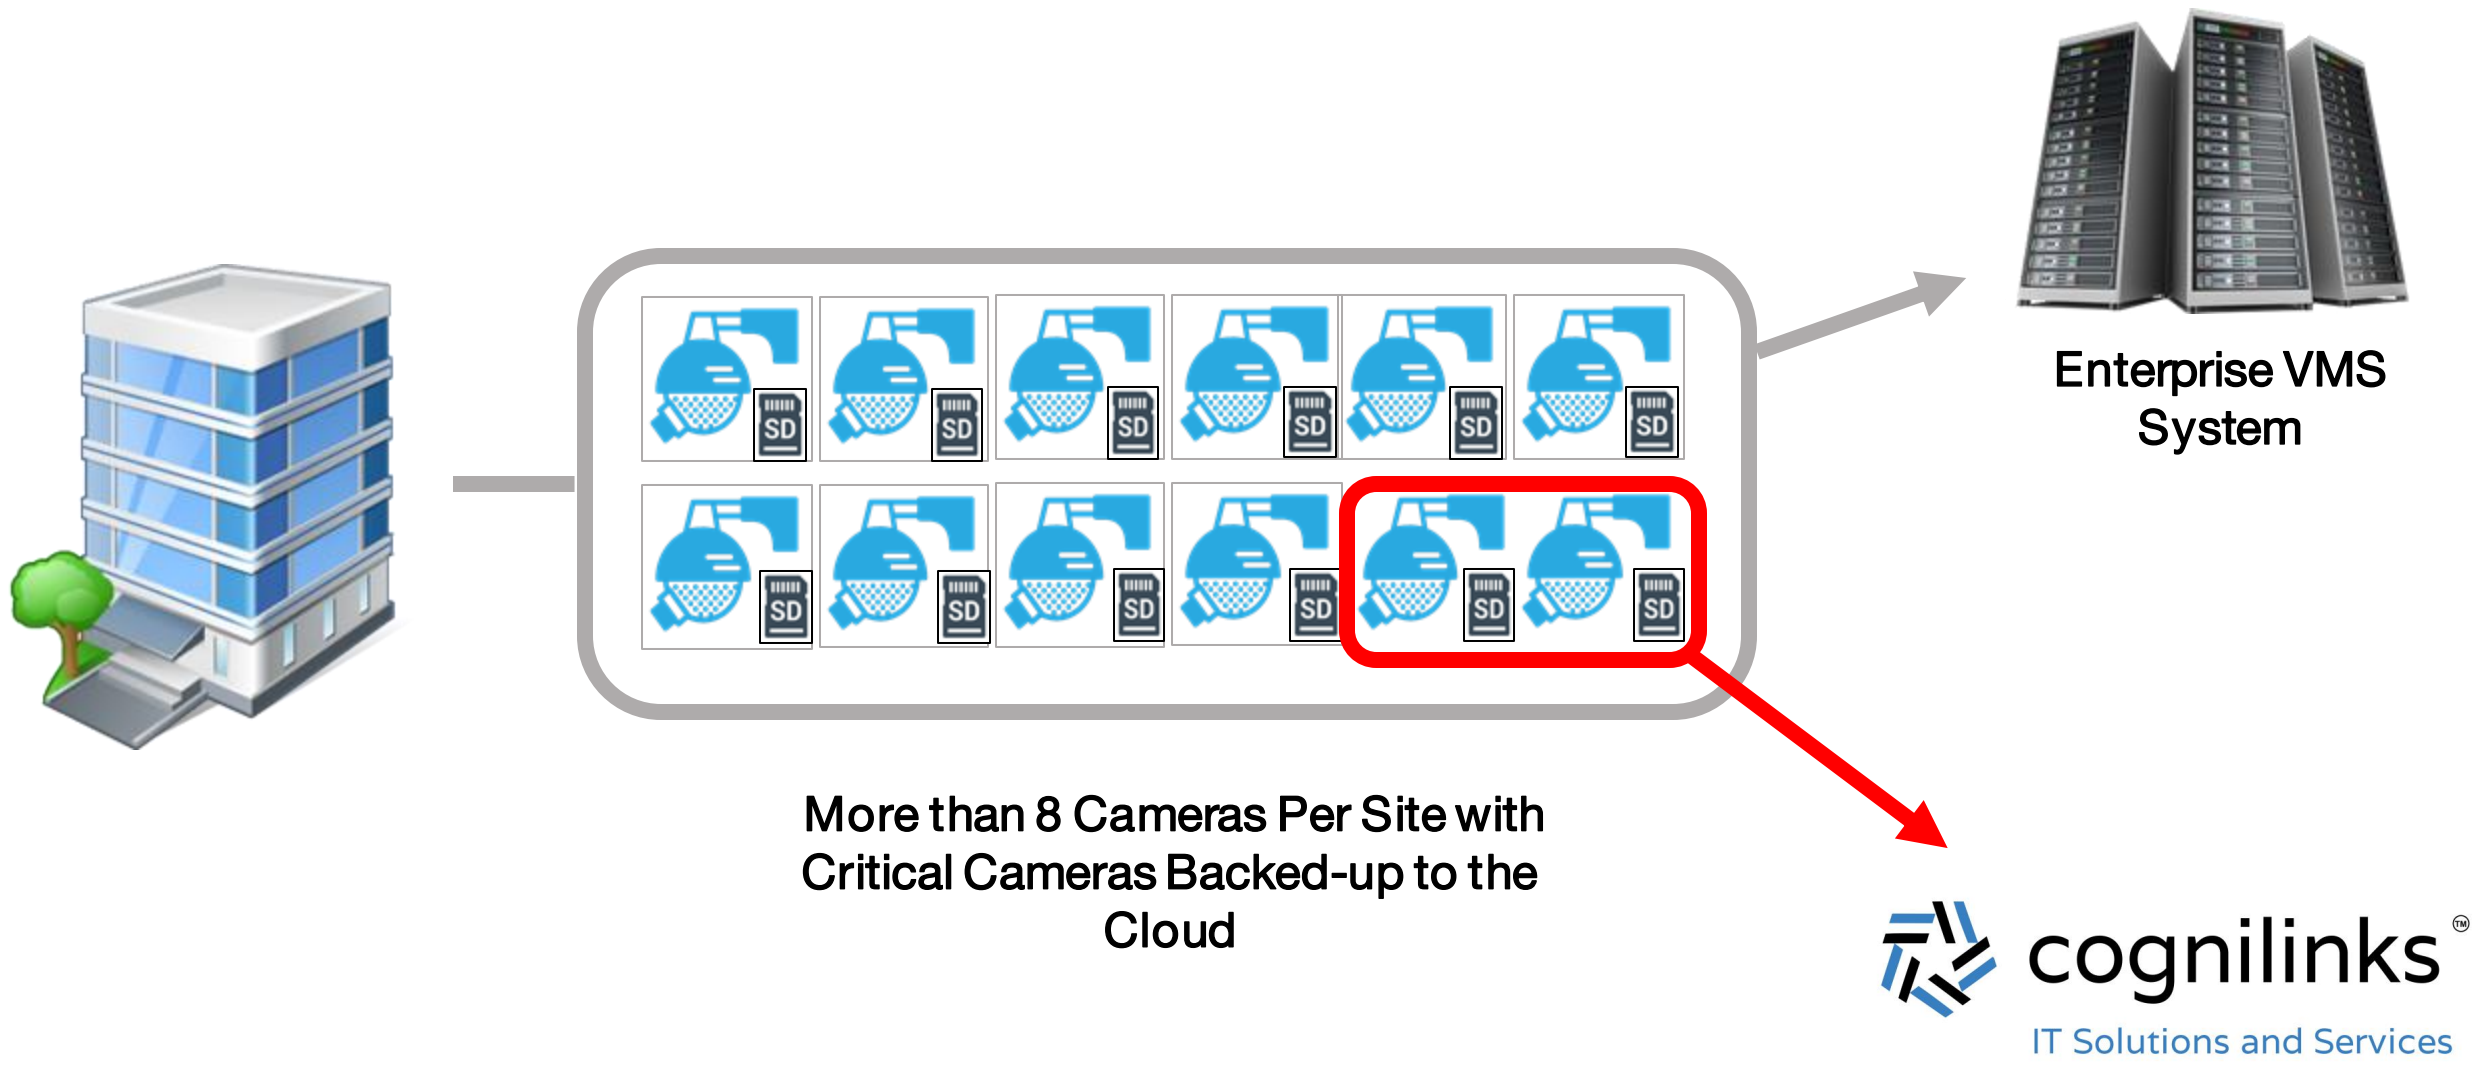

8 Cameras or  
Less Per Site
